

YARRABEE & CASTLEMAINE STONE

WALLING STONE OVERVIEW

2023

Yarrabee & Castlemaine Stone

WHEN EXPERIENCE MATTERS

“Yarrabee Slate”, open as a family owned and operated business in 1978. At that time, indoor slate floors were very popular. Slate was sourced from India and Africa and accounted for more than 95% of our business.

As the Melbourne landscape industry developed and flourished, products better suited to outdoor applications were added. This began with Sandstone and now incorporates a vast range of beautiful natural stone from Italy, Greece, China, Spain, India, Egypt, Cambodia and Oman.

In 1953, a vein of a very beautiful and unique stone was found in the hills not far from Castlemaine, and the Castlemaine Slate and Stone Quarry was created.

In 2005, Yarrabee Slate acquired the quarry and Yarrabee & Castlemaine Stone Solutions was born. Today it is one of Australia’s most iconic natural stone products.

At Yarrabee, we are dedicated to ensuring our customers and partners are successful through a strong focus on our 5 “etched in stone” principals:

- Provide the best purchasing experience possible
- Delivering the best possible project outcome
- Supplying only quality products
- Always provide accurate and truthful information
- Provide an outstanding level of service and care

INTRODUCTION

Stone walling can completely transform your wall into a visually appealing masterpiece.

If you're looking to achieve a natural Australian look Yarrabee & Castlemaine offer several high-quality natural stone walling options to choose from.

In addition to their aesthetic appeal, natural stone wall cladding is also known for its durability and resistance to the elements. This makes it a practical choice for outdoor applications where they can withstand the test of time and continue to look great for years to come.

RANDOM WALLING

Yarrabee's random (also known as organic) walling range offers a wide selection of colour and texture options to complement any design style. Random walling can be used to create a variety of looks, from rustic to modern, and everything in between.

Wall Claddings are typically adhered to a suitable subtrade and affixed with a high quality fit for purpose tile adhesive. When calculating the total quantity of stone required consider both the face metres and corners
