

YARRABEE & CASTLEMAINE STONE

# JINDABYNE RANDOM

STONE WALL CLADDING

# JINDABYNE

Incorporating Jindabyne, a warm toned wall cladding, can amplify the value and appeal of any home. With the ability to install with dry stacked or grouted, Jindabyne walling offers a variety of design possibilities, each with its own unique mood. The natural variation of cool tones paired with warm earthy shades adds flexibility and edginess to any design. Jindabyne's rough texture provides dimension and highlights the stone's organic beauty, making it a great option for those seeking a unique and natural look.

<b>Components</b>	Jindabyne comes in flat pieces used for the face surface of the wall and L shaped corner pieces for the corners of the wall
<b>Profile</b>	Walling pieces are random (organically irregular) Corner pieces are random (organically irregular)
<b>Dimensions:</b>	Walling stone is random sized pieces with a diameter of approx 200-400mm. Corner pieces are "L" shaped with one side 100-150mm, the other side 150-250mm and a height of 100-250mm
<b>Thickness:</b>	Available in 2 thicknesses: 20mm or 30mm (average)
<b>Weight:</b>	Walling flats = 70kg per m <sup>2</sup> (30mm) or 48kg per m <sup>2</sup> (20mm) Corners = 25kg per lineal metre (30mm) or 16kg per lineal metre (20mm)
<b>Quantities:</b>	Walling flats = 10 m <sup>2</sup> per crate (30mm) or 15 m <sup>2</sup> per crate (20mm) Corners = 25 lineal metres per crate (30mm) or 40 lineal metres per crate (20mm)
<b>Ordering:</b>	Sold in quantities of 1 square metre or 1 lineal metre lots Note: 1 lineal metre equates to approximately 0.3m <sup>2</sup> of coverage Both walling flats and corners are actively stocked
<b>Note:</b>	If you are installing your stone without using grout joints, we advise adding a minimum of an additional 20-25% to account for any wastage. This will give the installer the flexibility to cut and shape the stone to achieve butt-jointed joints required for this look. Furthermore, we recommend the installer to unpack each crate of stone and utilize a mixture of the sizes provided. Smaller or unused pieces cannot be exchanged for larger ones. It is the installer's responsibility to make use of all the sizes provided.
